The Right Way is the Safe Way

Safe Night Time Driving Tips

- Keep headlights, tail lights, sign lights and windows (inside and out) clean.
- Have headlights properly aimed. Mis-aimed headlights blind other drivers and reduce your ability to see the road.
- Reduce your speed and increase your following distance.
- Don't overdrive your headlights. You should be able to stop inside the illuminated area.
- Keep headlights on low beam when following another vehicle.
